CHAIR

This club chair has a lot going for it, so we put wheels on the front! Solid and durable, it can easily be repositioned for a chat or relocated to a cozy spot for some quiet time with a good book or a cup of tea. Adding to the overall design, the curvaceous front legs are trimmed with ferrules and casters. You can explore the hundreds of covering possibilities we offer and choose the perfect fabric, colour and pattern to make your chair one of a kind.
