AERIEL OTTOMAN

This classic ottoman is designed to go with the #14304 lounge chair, but could easily be paired with any couch or chair. It could even hold its own as an extra seat or a place to set a tray or rest a weary foot. The soft lines and plump cushioning await your choice of covering. Match it with the colours in your home, or give it its own character a contrasting colour or bold pattern. The decision is all yours, but whatever you choose, your Vogel ottoman will be handcrafted to perfection.
